I, _____ am requesting my own information from the South Carolina Prescription Monitoring Program (PMP) database, as authorized by law. I affirm, by my signature below, that I have personally appeared before Lexington/Richland Alcohol and Drug Abuse Council, Recovering Professional Program (RPP) Medical Director, Rebecca Ann Payne, MD, or her designees, Robyn W. Madden, Special Counsel, or Jessica Linder, Lead Recovery Specialist, with a government issued photo identification confirming my identity as the recipient and/or that I have provided (via fax, electronic mail, US Mail, or hand delivery) a copy of a government issued photo identification confirming my identity as the recipient. I hereby designate RPP as my agent for acquiring my individual PMP information for the sole use of RPP in determining appropriate referral for services and monitoring ongoing recovery as so designated within my RPP contractual agreement.

A prescription history report provides an overview of prescription activity over time. There may be a lag time of up to 48 hours from the time a prescription is dispensed by a pharmacy or prescriber until the data is available in the PMP system. The requested information is based on the search criteria utilized and the data entered by the dispensing entity. Hence, the PMP does not warrant any report to be accurate or complete. For more information about any prescription in a PMP report or to verify a prescription, contact must be made with the referenced pharmacy or prescriber that dispensed it.
